

Editorial Board

Editorial Board Structure

The editorial governance of *Scifood* is designed to ensure transparency, scientific quality, and editorial independence.

The journal is led by the **Editor-in-Chief**, who is responsible for the editorial direction, peer-review process, and final editorial decisions. The Editor-in-Chief is supported by a **Deputy Editor-in-Chief**, who also serves as the **Chair of the Scientific Editorial Board**.

The **Editors** assist with the editorial handling of manuscripts, language editing, layout preparation, and, where applicable, statistical evaluation.

The **Scientific Editorial Board** comprises internationally recognized experts from academia and research institutions. Its role is to support the journal's scientific scope, uphold academic standards, and advise on strategic development. Members of the Scientific Editorial Board do not interfere with individual editorial decisions.
